KEEPING UP WITH THE MINIs.

The MINIs are a unique bunch. A family like no other, they constantly draw attention wherever they go. They also enjoy a wide variety of activities, whether it's rounding up the friends for a night on the town, or sniffing out the perfect on-ramp. No matter where your adventures lead, there's a MINI that is perfect for you.

Every MINI offers more thrills than anything else on the road. While they may be small, each one packs a much bigger-than-expected punch. That's because every MINI is equipped with either a naturally aspirated, 121 hp, 16-valve engine for the Cooper, or a 181 hp turbocharged engine for the Cooper S. And for the MINI John Cooper Works, the power rises to a blistering 208 hp. You're always guaranteed to get the most out of the road with MINI.

So the question still remains: which MINI model will you choose to join you on your journey?

THE PERKS OF ROLLIN' WITH MINI.

3 years/50,000 km

» NO-CHARGE SCHEDULED MAINTENANCE.

You may be buying a new MINI, but we want you to feel comfortable enough to drive it like you've owned it forever. After all, you've got the "MINI Driver" reputation to uphold. To help ease your conscience as you rip through the corners, we're throwing in a 3-year/50,000 km (whichever occurs first) No-Charge Scheduled Maintenance package.

4 years

» MINI ROADSIDE ASSISTANCE.

Get out, hit the highway, make your mark and throw your worries in the trunk. With MINI Roadside Assistance, you'll get an outstanding 4 years of unlimited travel protection, wherever the road takes you. The program offers towing, lock-out service, on-site assistance, and even custom-computerized trip-routing services. MINI Roadside Assistance is available 24 hours a day, anywhere in Canada and the U.S., and you're only ever a toll-free phone call away.

4 years/80,000 km

» MINI WARRANTY.

Each MINI is built according to the highest possible standards of quality – a guarantee that you'll experience driving thrills for the entirety of your MINI's life. So, you'll be jumping for joy when we tell you that MINI gives you a warranty period of 4 years or 80,000 km (whichever occurs first). Even more exciting is that the entire car, including Original MINI Parts and Original MINI Accessories (the only exception being wear-and-tear parts), is covered by a 2-year warranty with no-distance limit. Please see your local MINI Retailer for additional information on coverage and limitations.

ALL4

All-Wheel Drive

» ALL4 ALL-WHEEL DRIVE.

The optional **ALL4 All-Wheel Drive** system in the MINI Countryman and MINI Paceman takes driving excitement to a whole new level. Unique to MINI, ALL4 delivers superb traction, confident cornering, and zippy agility, even on uneven surfaces.

MINI

» MINI CONNECTED.

The in-car infotainment revolution starts here. MINI Connected offers innovative technology to make your link-up to the outside world even better – with safe, comfortable, and intuitive controls for all functions.

JOHN COOPER WORKS

» JOHN COOPER WORKS.

It is said that from the day he was born, John Cooper had eyes for certain things above all else: race cars. And the faster, the better. The brilliant engine developer worked tirelessly to create a race car for everyone. His work paid off, and his gift to the world was the classic MINI; a vehicle with extra-dynamic spunk. To honour his gift, our lineup of top-performance John Cooper Works MINIs are designed for adventuring and extreme driving fun.

MINI has much more to offer.
Visit **MINI**.CA, or ask a MINI Representative for more information.

MINI HATCH.
THE ORIGINAL.

It's always good to stand out from the crowd, which is why the original MINI remains defiantly original. With its distinctive blend of go-kart handling, throaty exhaust notes, and classic good looks, the MINI Hatch delivers a driving experience like no other car on the road. The Hatch is unmistakably MINI in every way. Since the first MINI was designed in 1959, our engineers have learned that some things were meant to stay the same.

GOOD ROADHOLDING MEETS COMFORT.

Thanks to the centrally split rear seats, the MINI has ample space for four people. With many storage compartments and plenty of boot space, it's quite conceivable that you'll take more with you than you actually need. All controls and displays in the cockpit are in an elegant black colour. Passengers in the front row are free to use the intuitively designed rocker switches to operate functions such as window lifts, front fog lights, and central locking.

However, the main attraction is, undoubtedly, the centrally positioned speedometer; a primary point of activity for your MINI. With the new MINI Connected App, every press of the accelerator, every corner and every kilometre you spend in motoring bliss can be accompanied by your very own driving soundtrack – designed by you and for you. Now, you can immerse yourself into the perfect rhythm for that perfect drive.

MINI CONVERTIBLE. BURY YOUR HEAD IN THE SKY.

Every journey needs some fun and that's exactly what you'll get with the MINI Convertible. This "party-on-wheels" is equipped with a low centre of gravity, short overhangs, low weight and high-torque engines. This model also gives you three looks in one package: your MINI with the top up, the top down, or the top half-down (or half-up, depending on your life perspective). So let your hair hang down and blow back in the wind, while the MINI Convertible shows you a good time.

MINI CLUBMAN.
RUNS ON IRREGULAR.

The MINI Clubman does things its own way. With two split rear barn doors, as well as the unique side Clubdoor, the MINI Clubman offers ready access to a surprisingly roomy interior. With the rear seats folded down, the trunk transforms from 24 feet of cubic space, to a roomy 32.6 feet of cubic space. Although it may be slightly larger, the MINI Clubman remains completely MINI, from its unmistakable styling to its nimble handling.

CHARISMA MEETS QUIRK. MINI COOPER S CLUBMAN BOND STREET EDITION.

Named for the high-end shopping district in the British metropolis of London, this Special Edition MINI is the embodiment of elegance and opulence – with a fun MINI twist, of course. Brand new contrasts in Cool Champagne colours the roof, bonnet stripes, mirror caps, and lines the rim of 17" Twin Spoke Black Turned Alloy Wheels, perfectly complementing the Midnight Black metallic exterior paint and solid chrome accents. Deep Champagne piping and detailing in the interior helps to highlight the richness of the Carbon Black upholstery, letting you bask in the lap of luxury as you drive with MINI motoring confidence.

MINI COUPÉ.
PULL A FAST ONE.

Two seats, one automatic spoiler, unlimited driving fun: this MINI's not afraid to challenge the status-quo, and doesn't see the boundaries of society as limiting. Instead, they are great trials waiting to be tackled. The MINI Coupé is an unapologetically aggressive two-seater with a low centre of gravity, and its aerodynamic design will allow you to accelerate from 0 to 100 km/h in a mere 6.9 seconds (and a whopping 6.4 seconds for JCW models). The MINI Coupé will instantly have you thinking: rules were made to be broken.

For more information about the MINI Coupé, visit **MINI**.CA/COUPE, or configure your own at BUILDMY**MINI**.CA.

STRIKINGLY DIFFERENT. INSTANTLY FAMILIAR. UNMISTAKABLY MINI.

Being inside is 'in'. The passengers in the MINI Countryman feel thoroughly at ease. High-quality workmanship and comfortable refinements leave no wish unfulfilled.

The interior of the MINI Countryman offers a lot of space – and even more options. It has all the features you can think of, and a wealth of design details you would have never thought of, so it's always exciting, even when it's not moving.

MINI PACEMAN. DESIGN WITH BITE.

If this Crossover Coupé looks ready to bolt at a moment's notice, that's because it is. With MINI's notorious under-the-bonnet spunk, the Paceman's racing shoulder line, tapered windows, and shrouded C-pillar cut an athletic profile that signals a warning to other drivers, both on and off the rally course. So, watch your six—this is no ordinary MINI. And with the **ALL4 All-Wheel Drive** system available, we guarantee that its bite will be as big as its bark.

For more information about the MINI Paceman, visit **MINI**.CA/PACEMAN, or configure your own at BUILDMY**MINI**.CA.

ELEGANCE & ATHLETICISM GO TOE-TO-TOE.

Personalize your MINI Paceman by choosing from a huge range of interior combinations, including six different upholsteries, three colour line options, and four interior surface colours. No matter your style, you'll find a design combination to match.

JOHN COOPER WORKS.
STREET LEGAL. JUST BARELY.

MINI.CA/JCW

The MINI John Cooper Works lineup offers a potent combination of balanced handling and ballistic acceleration, and is tuned to achieve performance normally reserved for race cars, which, not coincidentally, is exactly what it is. One look under the bonnet reveals an engine that is capable of producing 208 hp at 6,000 rpm. If that isn't enough power for you, try giving the sport button a tap. This will transform your MINI into an absolute top athlete, with more precise steering wheel responses and faster accelerator pedal response times – even the tone of the twin-pipe exhaust moves up a key.

The John Cooper Works family offers so much horsepower, you may have to buy a saddle.
From one motoring connoisseur to another, you're welcome.

JOHN COOPER WORKS

THE LIVING MOTORSPORT LEGEND.

» In the 1960s, John Cooper achieved a string of stunning victories with the original MINI, including three wins in the Monte Carlo Rally. Today, John Cooper Works remains a byword for motorsport excellence; as seen in the optional John Cooper Works package for MINI Cooper S models, the John Cooper Works models (each developed from race cars), and dynamic John Cooper Works Tuning components. Racing is in our blood.

» While most people were frolicking to British Guitar Pop, John Cooper was busy forever redefining motorsport. In less than a decade, his team pilfered the checkered flag in almost every one of racing's benchmark contests. Unconventional and full of spunk, the classic MINI Cooper was a perfect match for Cooper – the man.

The Cooper legend lives on in the MINI John Cooper Works lineup. Three generations of indomitable Cooper racing spirit bring you adrenaline-inducing machines that are all guts.

MINI JOHN COOPER WORKS GP.
WELCOME TO THE FAST LANE.

The limited edition MINI John Cooper Works GP combines an exclusive powertrain with chassis and aerodynamic technologies to provide sheer, motorsport, driving performance. Its twin-scroll, turbocharged engine boasts an outstanding torque capability of 192 lb/ft at 1,750 rpm, allowing you to accelerate with ease at the light tap of your foot. This coupled with the Overboost function gives your MINI an unparalleled torque of 207 lb/ft at 2,000 rpm. The MINI John Cooper Works GP is lightweight and race-bred, making it the most extraordinary and fastest MINI ever built. Pure unadulterated driving fun — that only a MINI can provide.

THE WHO'S WHO.
MINI SPECIAL EDITIONS.

The most exclusive way of leaving an impression on the road. Limited and extravagant editions are available for selected MINI models, featuring options, colours, and materials that always harmonize perfectly.

Even their names show that each MINI Special Edition is a real character with British roots—all referring to a region near London. And, to make sure that everyone recognizes their exclusive and special qualities at first sight, their emblems have been integrated in the side scuttles, seat labels, and door entry stripes. So, with every MINI Special Edition, unlimited driving pleasure is a given.

CONCEPT AND SAFETY.

Your MINI, your bodyguard: various sensors recognize dangers before they actually arise, allowing you to react in good time. In tricky situations, you are supported by the intelligent suspension and braking systems. Maximum security on four wheels: in the event of a crash, a wealth of safety equipment provides you with optimum, all-around protection.

» BRAKING SYSTEMS.

Optimum braking behaviour in any situation is ensured by 4 disc brakes, with the latest generation of 4 sensor Anti-lock Braking System (ABS) as standard. Enhancing your agility, Electronic Brakeforce Distribution (EBD) manages the balance of the braking force between the front and rear axle. Cornering Brake Control (CBC) improves stability by evening out brake pressure from side-to-side when braking while cornering or changing lanes. Brake Assist speeds up the slow-down process, enabling maximum braking pressure while minimizing the braking distance.

» STABILITY CONTROL.

MINI's standard Dynamic Stability Control (DSC) will automatically adjust engine power and apply slight braking force when instability is detected. When DSC is turned off, Automatic Stability Control (ASC+T) activates and improves front axle traction when accelerating on slick surfaces, helping you dig out of that sand trap or deep snow.

» FLEXIBLE REAR AXLE.

Thanks to the multilink rear axle, each wheel can react independently, meaning that an uneven road surface doesn't affect the entire chassis – and that your driving experience remains as relaxed as ever. Even more safety is provided by the single-link spring-strut front axle and symmetrical, equal length drive shafts.

» STRONG TIRES.

A MINI never has that deflated feeling, thanks to Run-Flat tires with emergency running properties. The reinforced sidewalls allow you to drive up to 80 km at a speed of 80 km/h, even with complete tire pressure loss. Combined with a tire pressure warning system that will alert you if any of the four wheels drop in air pressure, you'll keep your tires in optimal condition and always firmly planted on the road.

» FAST AIRBAGS.

MINI Cooper, Clubman, Countryman, and Paceman models have six airbags while MINI Coupé, Convertible and Roadster models have four as standard. Driver and passenger airbags protect the head and upper body during a head-on collision. Side and head airbags reduce the risk of injuries to the head, chest, and pelvic regions during side impact. These "SMART" airbags constantly measure the driver's and front passenger's positions, seatbelt use and impact severity that determine airbag inflation rates accordingly, keeping you safe and protected.

» BRILLIANT LIGHTS.

Optimum light on straights and bends alike – thanks to MINI's optional Bi-Xenon Headlights. Clear and bright illumination with automatic self-levelling that adjusts the beam's angle to the road based on your MINI's speed and load. They even clean themselves with retractable power washers for the very best visibility.

LIGHT ALLOY WHEELS.

Why not make some heads spin with a set of MINI Light Alloy Wheels, designed specifically for your MINI model.
